(LISTED BELOW)

**SUPPLEMENT 50X1-HUM**  
**REPORT NO.**

THIS IS UNEVALUATED INFORMATION FOR THE RESEARCH  
USE OF TRAINED INTELLIGENCE ANALYSTS

1. Reinforced concrete submarine shelters have been built under the steep rock cliffs at Divulje (Split).
2. For some months building materials have been arriving at the port, including timber, cement, iron girders, sand and rectangular concrete bases pierced with six socket holes for T- and double T-shaped iron girders. Excavations on a large scale are being carried out above the submarine pens.
3. Work is being carried out by engineer units, and the area is closed to civilians. [ ] the material is being used for the construction of a new base and for a launching platform for long-distance weapons of the V-1 and V-2 type.
